Methodology

By optimising the flow, function, and efficiency of your kitchen you can focus on quality, not compromise.

1 Concept Design

2 Flow of Operations

3 Equipment Optimization

4 Value Engineering

5 Final Layout & Quantity

6 MEP Layout

7 Supply & Installation

8 Testing, Commissioning & Handover

Value Engineering

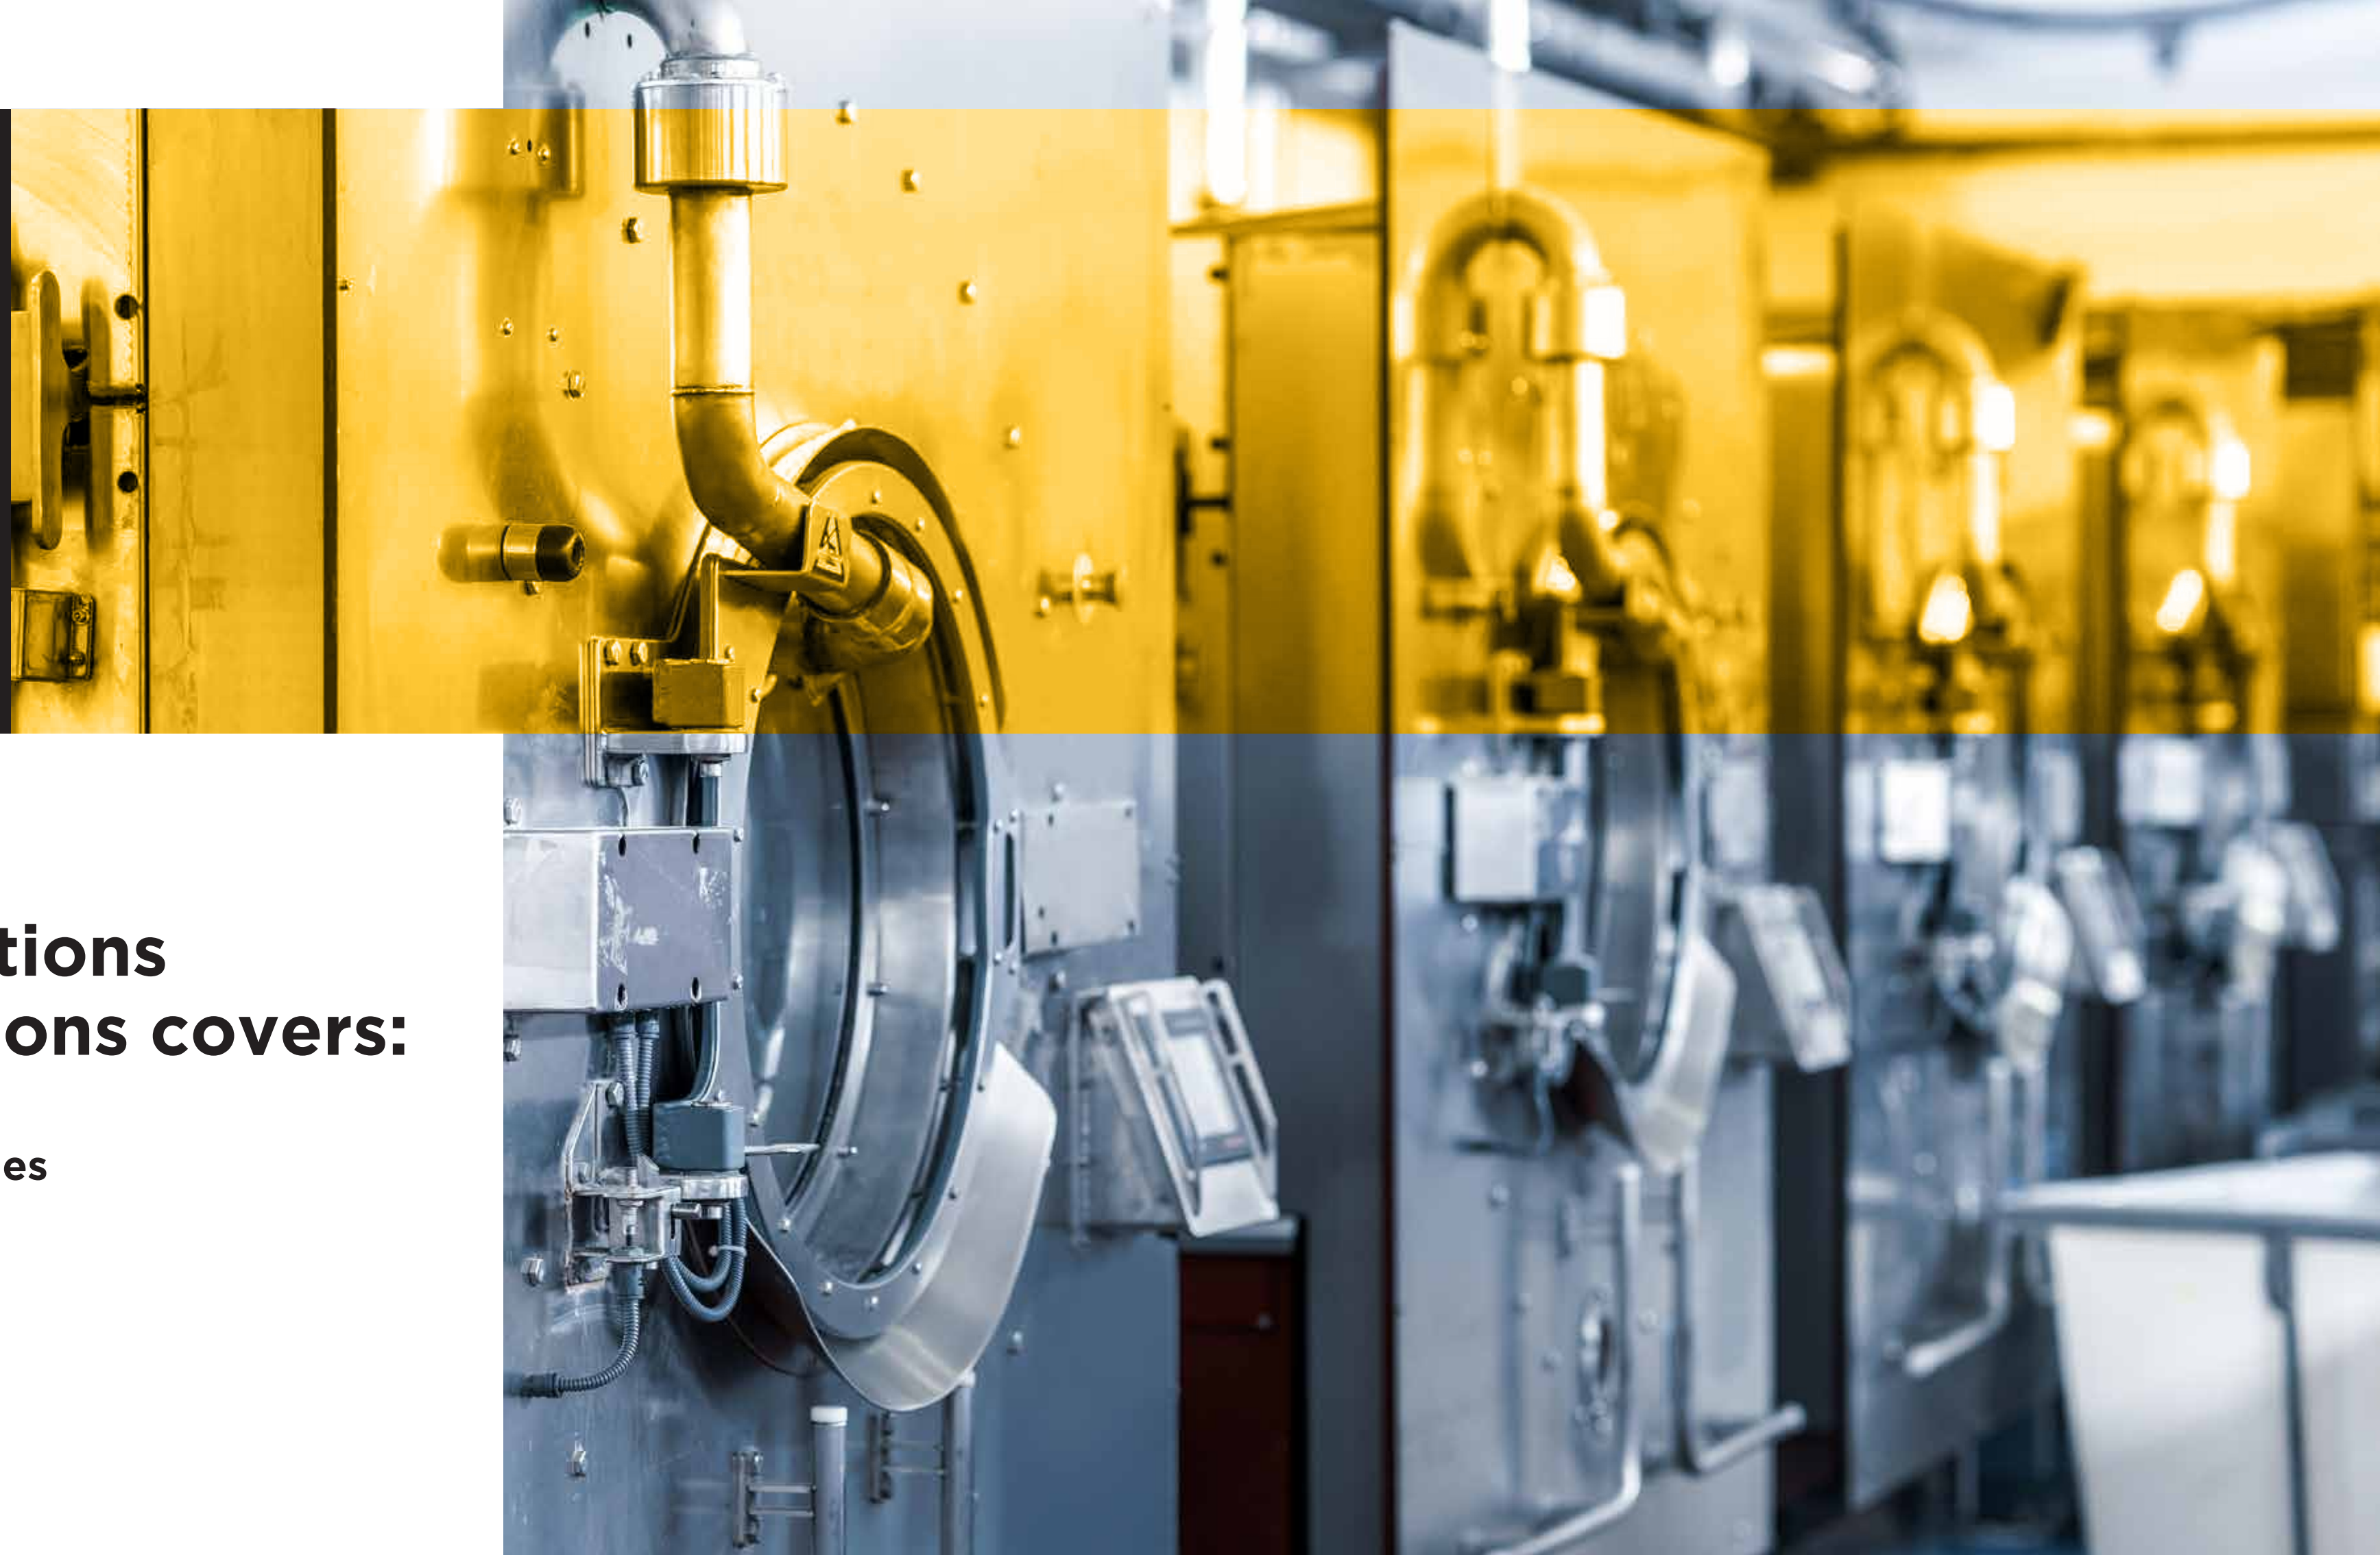

Construction costs can vary dramatically based in an engineer's choices including foundation footing sizes, structural hardware, such as bolts and connections, framing materials such as steel vs wood. Value Engineering ensures we are offering you the most cost effective options while developing the most effective solutions and flow for your Kitchen

Industrial Laundry

We provide a complete range of textile cleaning machines especially designed and engineered for maximum safety and optimum cleaning results.

Our complete solutions for laundry operations covers:

- Washing Lines
- Feeding, Folding & Ironing lines
- Dry-Cleaning Systems
- Finishing Lines
- Drying Lines

Expertise

We are your guide through the world of foodservice equipment so you can make the decisions that are best for you and your business.

OP-013
