

Excellent.

About

elegancia stones was established in qatar to provide turnkey solutions for all types of stonework services and products to fulfill the needs of the local market.

▶ elegancia stones |

elegancia stones has two divisions: The Trading Division sells stone slabs and has a wide variety of stone types and colors, stored in elegancia stones' production facility and the Contracting Division providing full services for supply and installation of stone works to local contracting companies.

elegancia stones contracting division has three main departments that serve the supply and installation of project requirements: The technical departments, supported by a team of professional engineers and craftsmen; the fabrication department, equipped with the most up to date CNC machines for all types of fabrication requirements and; the installation department, assisted by experienced staff and labors for all types of installation works.

Our Facilities

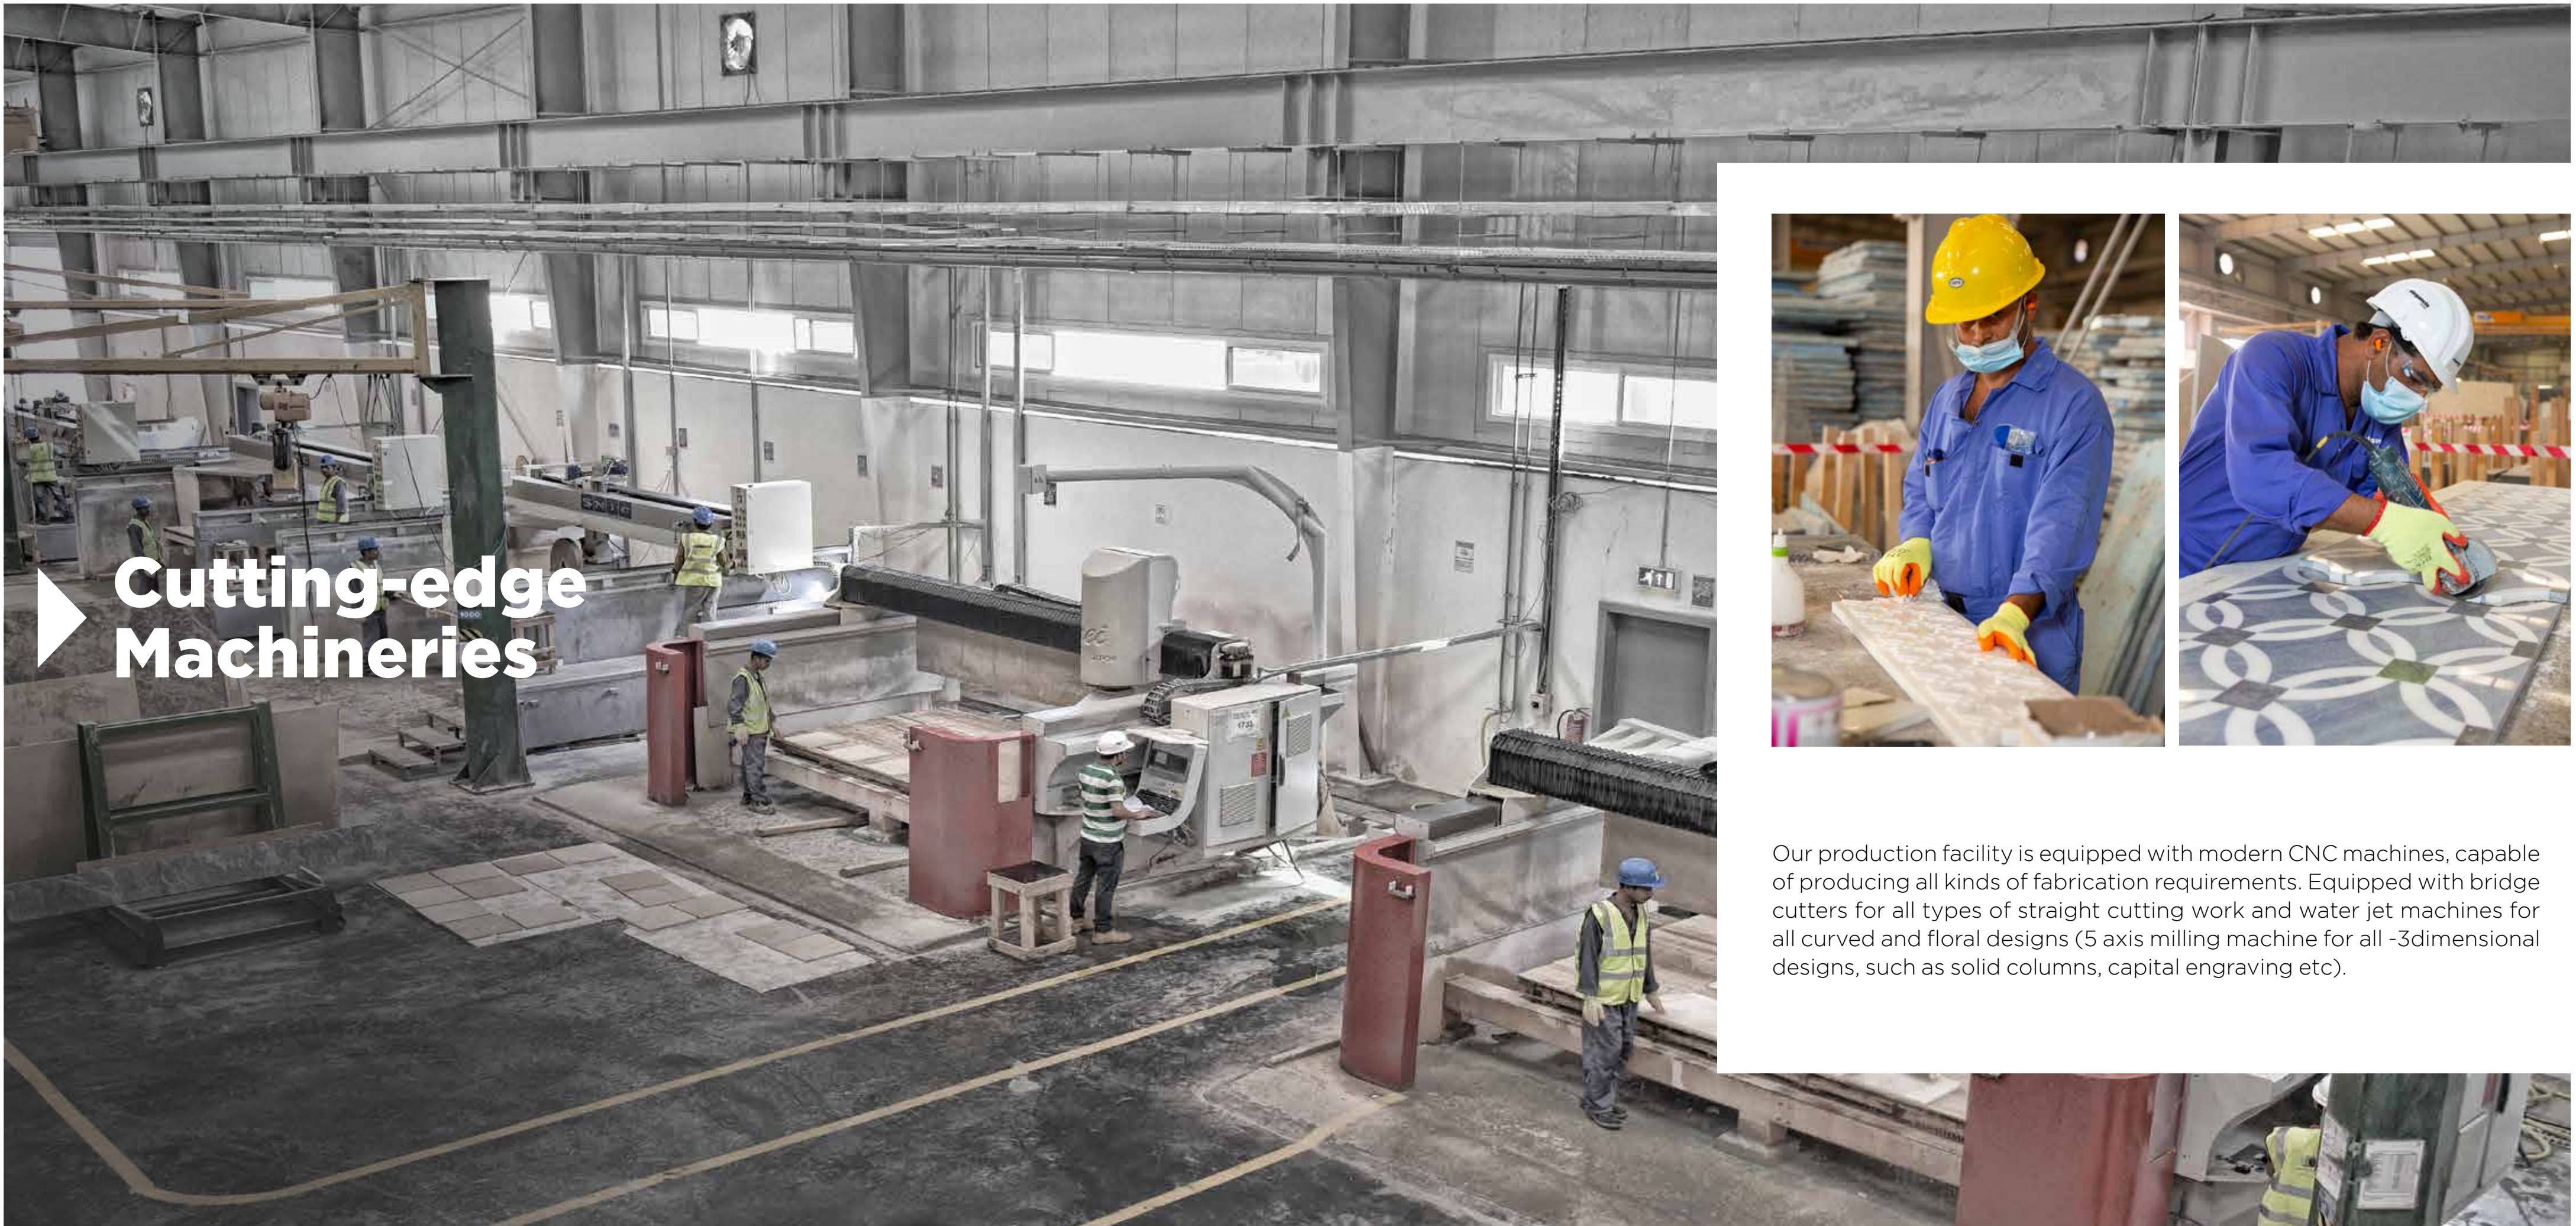

+23,000 sqm.
+1,000 manpower

► Skilled Experts

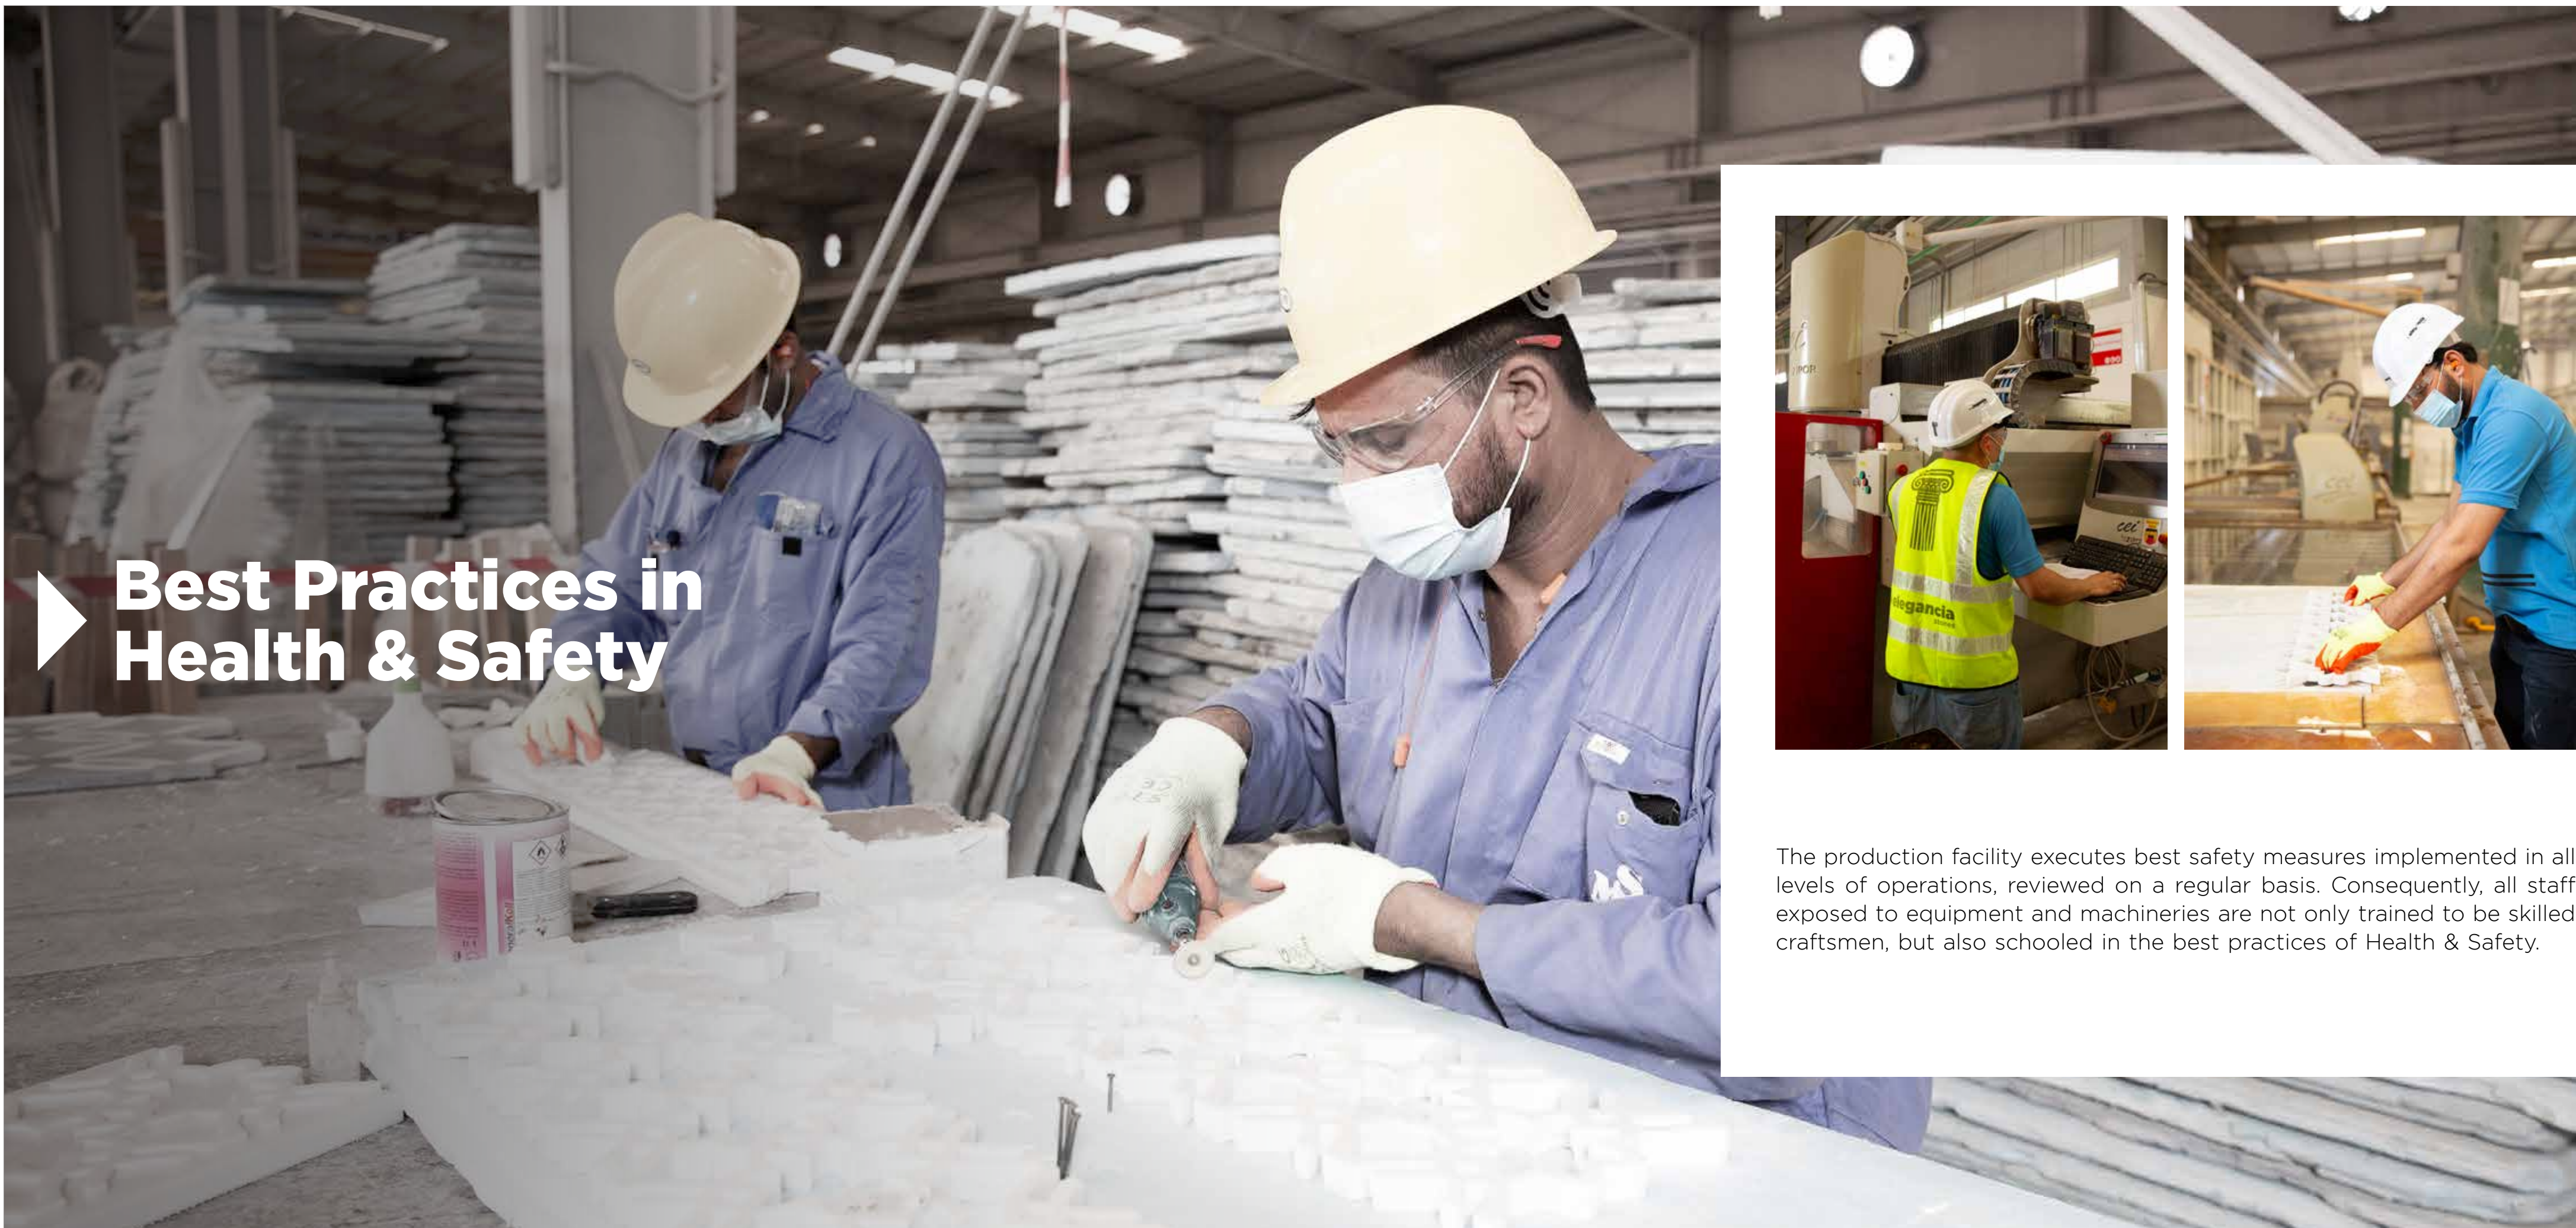

elegancia stones team of experts and skilled workers meticulously deliver professional work with their combined expertise in production. Workers undergo regular training to learn modern techniques in the industry.

▶ Cutting-edge Machineries

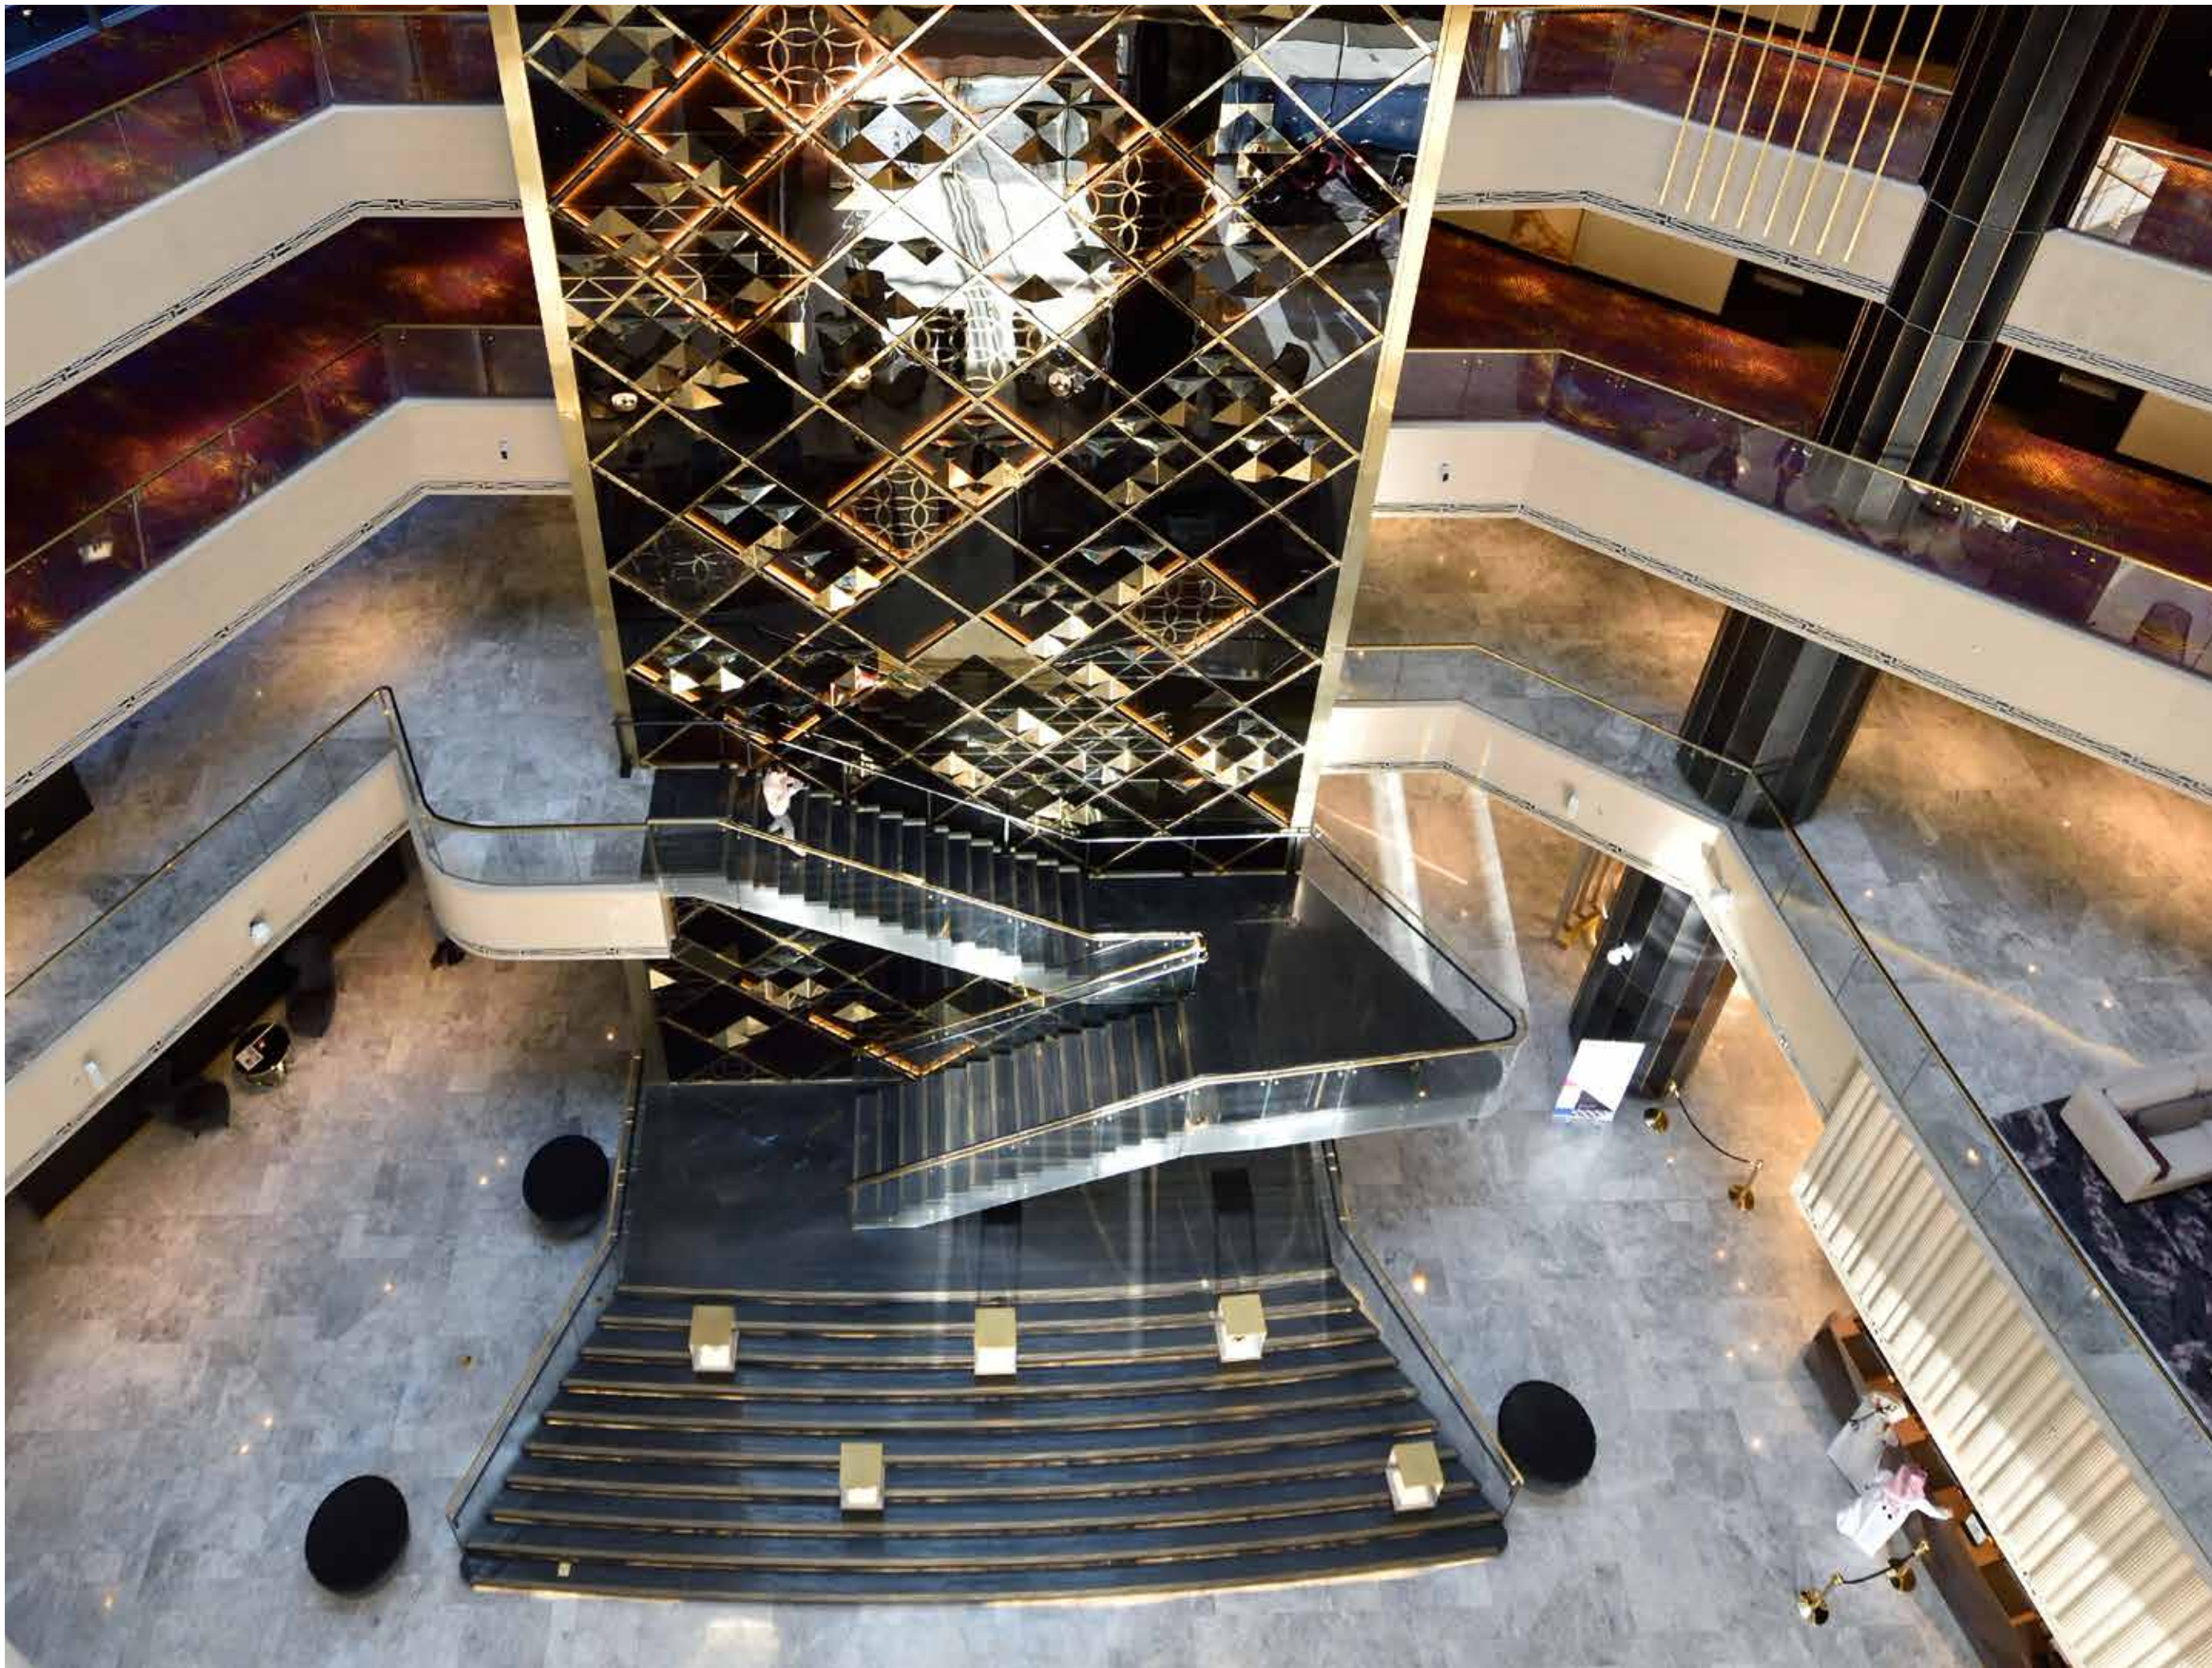

Our production facility is equipped with modern CNC machines, capable of producing all kinds of fabrication requirements. Equipped with bridge cutters for all types of straight cutting work and water jet machines for all curved and floral designs (5 axis milling machine for all -3dimensional designs, such as solid columns, capital engraving etc).

▶ Best Practices in Health & Safety

The production facility executes best safety measures implemented in all levels of operations, reviewed on a regular basis. Consequently, all staff exposed to equipment and machineries are not only trained to be skilled craftsmen, but also schooled in the best practices of Health & Safety.
